SUMMARY

Full stack software developer and Fullstack Academy graduate with hands on experience building responsive applications using JavaScript, React, Node.js, Express, and PostgreSQL. Created and deployed a developer resume and portfolio app on Netlify to support a focused job search and showcase live project work. Strong foundation in front end development, REST APIs, authentication, relational databases, Git based collaboration, testing, debugging, and AI assisted workflows. Operations and leadership background strengthens accountability, systems thinking, and practical problem solving.

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3, SQL

Frameworks and Libraries: React, React Router, Node.js, Express.js

Databases: PostgreSQL

Developer Tools: Git, GitHub, VS Code, Vite, Command Line, Netlify

Core Concepts: Responsive Design, DOM Manipulation, REST APIs, Authentication, Test Driven Development, Data Structures and Algorithms

AI and Design Tools: ChatGPT, GitHub Copilot, Figma, Framer

TECHNICAL PROJECTS

Developer Resume and Portfolio App | frank-smith-developer-resume.netlify.app/

Technologies: JavaScript, React, Netlify

- Built and deployed a live job search resume application to present developer profile, skills, project links, and professional background in one central place.

Cutz By Casper | Barber Booking App | github.com/frankbjj23/Cutz-By-Casper

Technologies: JavaScript, React, Node.js, Express.js, PostgreSQL

- Developing a booking focused application with database backed workflows and interactive user features for scheduling and customer communication.

Sturgis Options | Group Trip Planning App | github.com/frankbjj23/Sturgis-Options

Technologies: JavaScript, React, Node.js, Express.js, PostgreSQL

- Built a trip planning tool to centralize housing options, links, dates, comments, and voting for group decision making.

Isaac Wright Jr. | Advocacy and Attorney Website | github.com/frankbjj23/isaac-wright-jr

Technologies: HTML, CSS, JavaScript

- Built a responsive public facing website with clear storytelling, interactive elements, and mobile friendly viewing.

PROFESSIONAL EXPERIENCE

Independent Master Trainer | Self Employed | New Jersey / New York

2019 to Present

- Designed structured programs using goal analysis, progress tracking, and measurable performance trends.
- Managed scheduling, client communication, digital tracking, and day to day business operations independently.

Owner / Operator | Eagle Holdings Corp | New York, NY

2018 to 2020

- Founded and operated a financial services company serving small and mid sized businesses.
- Designed internal workflows, client onboarding systems, reporting processes, and operational controls.

Chief Operating Officer | Premier Capital | Brooklyn, NY

2015 to 2018

- Directed day to day operations for a high volume financial services organization.
- Managed and mentored teams while implementing performance tracking and accountability workflows.

EDUCATION

Software Engineering Bootcamp | Fullstack Academy | Remote / New York

Graduated March 2026

- Immersive software engineering program focused on front end development, React, backend fundamentals, SQL databases, authentication, testing, data structures, algorithms, and practical application development.
